In and About Donishan Died, in Easton, Mo., July 18, 1879, Mrs. Mary Ann

Waller, wife of George Waller, Sr., from injuries re-reived in getting off the train while in motion, at that dace. As a number of the friends wish a sketch of her life, we pen the following, as received from her husband: She was born September 10, 1831, in Gar-rard County, Ky.-daughter of Capt. James Smith, of that County, who moved with his family from Kentucky to Ralls County, Mo., in October, 1829. Sh was raised in that County, and married George M. Waller, August 13, 1810. They continued to live there notil 1844, when Mr. Waller moved to St. Jo eph, Mo., residing there until March, 1855, when he moved to Kansas, settling in Doniphan County, six miles north of Doniphan City. He lived on his farm about fourteen years, when, his health failing, he about iourreen years, when an bought a forty-acre concluded to sell his piace, and bought a forty-acre lot one mile north of Douiphan; improved this lot, entting out a large orchard, and having every con et his surroundings would admit. Mr. Waller and his wife raised seven children; four married-two sons and two daughters; all living near Doniphan; one daughter single, and two sons, at home, the youngest about fifteen years old. Mrs. Waller had ad poor health for several years, and having two hoping her health would improve with the change. One sister, Mrs. Margaret Guthrie, wife of Rev. Allen W. Guthrie, living in St. Joseph, she sport several days with her; the other sister, Mrs. Sarah Tracy. ife of John Tracy, Esq., living in Easton, Mo. Mrs. Waller left Doniphan, with her husband, who accompanied her to St. Joseph, returning in a day or wo, leaving her with her sister, Mrs. Guthrie. Friday evening. July 18th, she left St. Joseph, to go to Easton, on the Hannibal & St. Joseph Railroad, a ompanied to the depot by friends, who procure for her a round-trip ticket, and placed her in charge of Conductor Lens, to look after her; she being feebl and having partial paralysis of her limbs, was not took hers, returning back fare, which she placed her basket. That was the last time she saw the con Inctor. When the train arrived at Easton, as we have it from parties who were present, forty seconds was all the time the train stood still. When the conductor told the engineer to go ahead, Mrs. Waller was in the act of getting off, assisted by a brakeman, when the train started suddenly, throwing her fetween the cars and platform, dragging the brakeman with her under the platform. This brakeman actes manly, and deserves great credit for his efforts to save the woman, he being so terribly bruised. If, as we are informed, he could have kept her down while under the platform, she could have been saved from death, the space where they both fell through ot being over ten or twelve inches. After being taken out, she lived about two hours, sensible for a short time, calling first for Dr. Hereford, of that place, and spoke of her dear children; said she was going to die, and was prepared. A dispatch came for Mr. Waller, who, with his son Felix, and Richard Welsh, went over to make arrangements to bring her home. The corpse arrived at home Sunday morning, and was buried Sunday afternoon, at 4 o'clock, in the Masonic Cemetery, followed to her last resting place by over two hundred people. Mrs. Waller was a member of the Cumberland Presbyterian Church for over forty years; lived an exemplary Christian life; was kind to her companion, a good and lovin mother, and was loved by all her neighbors and a 22 days. This is a sad bereavement, and many will feel the loss of so good a woman. We see it stated in two or three papers, that no blame is attached to the conductor for his careless neglect; but as the natter is before the Grand Jury, and some thirty witnesses subpernaed, it will there be proven wheth

e will be exonerated or not. If he is guilty, he hould suffer the extreme penalty of the law. That wedding at Severance does not seem to have and publicity. What! was not the Severance iter zer invited! Well, I do say! Mr. William Vader, wife, and family were p.esent. A Curiosity. That splendid Champion Dropper that was shipped to Will. E. Foster, on the noon train, July 12th caused a good deal of excitement in Severance. Ev erybody was delighted with it. THE EAGLE DRILL!

To My Farmer Friends of Doniphas, Brown and Atchison Countles.

As I shall not have time to see all concerning the Eading of Grain Drill, I will say to those who are wanting an 8,9, or 16-hoed, order early, as it takes time to get them here, and fill orders promptly. The Eagle has improvements that other Drills have not got. 1st. The feed is a gennine force feed. 2d. The grass seeder can be used in front of or behind the hoes. 3d. Can use half of the hoes or all. 4th. It gears in the centre of axis, instead of end, away from dirt or trash, and not so liable to break or get out of order.

I will give a few names of the many farmers who can recommend and are using the Eagle Drill. J. 19 Johnson, John Res. Wm. Ran. Highland; John Bell. James Brims, J. Penny, White Cloud; W. L.
